

Hello,

Nice to meet you.

If you are reading this letter, you are looking for a writer to assist you. Fortunately, I can help. My name is Matt Ryan and I'm a talented, top-notch writer looking for a job like the one you are trying to fill.

As a writer and wordsmith, I've written fantasy novels, developed gaming systems, and acquired a formidable repertoire of literary skills.

My interests range from fantasy literature & gaming to martial arts, chiropractic care, pets, and more. Of course, I am versatile enough that I can write about just about anything provided I am given the time to research as required. If you are interested, you can check out my **Non-Fiction Portfolio** below to view a sampling of some of the projects I've completed.

My specific skillset is as follows:

- 15+ years of writing, editing, and proofreading experience.
- 4+ years of content writing and copy writing experience
- 3+ years of SEO writing experience
- Knowledge of: Microsoft Office, Google Drive, WordPress, Grammarly, Hemingway Editor, Asana, Slack, and Wrike.
- A B.A. in philosophy and mathematics.
- Considerable experience with computers and computer science – including Jasper, ChatGPT, and the internal Microsoft Word (Copilot) AI Systems
- Familiarity with low-level physics, chemistry, and geology
- 30+ years of fantasy gaming experience (D&D, Warhammer, etc...) as player, gamemaster, and even game designer
- 20+ years of worldbuilding experience for fantasy worlds in novels and pen & paper RPG's

Of course, skills are only noteworthy when they are put into practice. In light of that, here are some of my most significant accomplishments to date:

- Writing substantial amounts of content for roughly three years for a Chiropractor's Office located in Alaska (Better Health Alaska)
- Writing content for approximately 18 months for a meal delivery service review company based in Israel (Delivery Rank).
- Writing a single 30k word book on Permaculture for a client on Upwork
- Helping to write a business plan for an aerospace company (protected by an NDA)

- Helping research and write a business model for an energy drink company (protected by an NDA)
- Proofreading and editing a medical article: Ryan, G.F. (2024) et al. "The Mortality of Politics: An American Paradox"
- Helping write a paper for the Department of the Navy on the interception of weaving targets: Linder, S.P., Ryan, M.D., and Quintin, R. J. (2001) "Concise Track Characterization of Maneuvering Targets". Accepted by the AIAA Conference on Guidance, Navigation, and Control. Montreal, CA. Powerpoint Presentation.

All told, I bring a powerful blend of analytical precision and creative flair to every project I undertake. So, whether it be a laymen's level science article, a sojourn through a beguiling world of make-believe, or a piece of persuasive marketing material designed to drive conversions, I'm the guy you want on your team.

So, send me an email and we can see how much we can help each other. I'm available at [mryan\\_author@yahoo.com](mailto:mryan_author@yahoo.com).

Thank you for your time and consideration.

Sincerely,

Matthew D. Ryan
